1. Overview of Business Results

(1) Overview of Operating Results

During the nine months ended December 31, 2025, despite an ongoing gradual recovery trend, the outlook for the Japanese economy remained still uncertain mainly due to rising prices and impact of the US trade policies.

In the electronics industry, while demand for AI-related products and data center applications continued to be firm, demand has remained weak in other businesses mainly due to prolonged inventory adjustments. However, some recovery was seen in corporate capital investment demand.

The Company ended its distribution agreement with Renesas Electronics Corporation, its major supplier, on September 30, 2024. The Company acquired SHIMIZUSYNTEC Corporation, which had been a subsidiary of NEC Corporation with a strong sales base in the Hokuriku area, making it a wholly-owned subsidiary of the Company on June 30, 2025.

Under these circumstances, our group (the Company and its consolidated subsidiaries) posted overall results at a decreased level compared with the same period of the previous year in the businesses related to industrial products, automotive electronic products, amusement products, and OA products, which are our core businesses.

As a result, the business performances during the nine months ended December 31, 2025 were: net sales 70,428 million yen (24.2% decrease compared with the same period of the previous year); operating profit 779 million yen (53.8% decrease); ordinary profit 1,057 million yen (38.8% decrease); and profit attributable to owners of parent 839 million yen (19.3% decrease). Business performances per segment are as follows.

The Company has revised certain reportable segments to better reflect the nature of its operations from the beginning of the nine months ended December 31, 2025. For comparative purposes, prior-year figures for the corresponding period have been reclassified to conform to the current segment presentation.

Electronic Device Business

All businesses, including the businesses related to automotive electronic products, remained sluggish.

As a result of the above, net sales were: semiconductors 9,984 million yen (75.2% decrease compared with the same period of the previous year), electronic devices 36,441 million yen (12.9% increase), and overall 46,426 million yen (36.0% decrease).

Assembly Business

The businesses related to amusement products remained sluggish.

As a result of the above, net sales of assembly products were 10,238 million yen (21.7% decrease compared with the same period of the previous year).

Other Businesses

The performance of SHIMIZUSYNTEC Corporation has been reflected in consolidation results from the second quarter of the fiscal year ending March 31, 2026.

In addition, the machinery and equipment business remained strong.

As a result of the above, net sales were 13,764 million yen (90.1% increase compared with the same period of the previous year).

(2) Overview of Financial Position

(Assets)

Total assets as of December 31, 2025 increased by 3,517 million yen from the end of the previous period to 83,568 million yen. This is mainly attributable to increases in notes and accounts receivable - trade, and contract assets, intangible assets, current assets-other and investment securities of 1,736 million yen, 1,540 million yen, 1,241 million yen and 740 million yen, respectively, despite a decrease in merchandise and finished goods 2,199 million yen.

(Liabilities)

Total liabilities as of December 31, 2025 increased by 2,950 million yen from the end of the previous period to 30,461 million yen. This is mainly attributable to increases in notes and accounts payable-trade, deferred tax liabilities and contract liabilities of 2,145 million yen, 1,592 million yen and 1,236 million yen, respectively, despite a decrease in electronically recorded obligations - operating 1,656 million yen.

(Net assets)

Total net assets as of December 31, 2025 increased by 567 million yen from the end of the previous period to 53,106 million yen. This is mainly attributable to a decrease in treasury shares of 5,184 million yen and increases in foreign currency translation adjustment and valuation difference on available-for-sale securities of 852 million yen and 497 million yen, respectively, despite a decrease in retained earnings of 5,979 million yen.

This resulted in an equity ratio of 62.5% (64.6% at the end of the previous year).

(3) Explanation of Consolidated Financial Results Forecast and Other Forward-looking Information

The Company projects consolidated financial results for the fiscal year ending March 31, 2026 of consolidated net sales of 107,500 million yen, operating profit of 1,000 million yen, ordinary profit of 1,000 million yen, and profit attributable to owners of parent of 730 million yen.

(3) Notes to Quarterly Consolidated Financial Statements

(Notes on going concern assumption)

Not applicable.

(Notes in the case of significant changes in shareholders' equity)

Based on a resolution at the Board of Directors' meeting held on August 19, 2025, the Company retired 7,000,000 shares of treasury shares as of August 29, 2025. This resulted in a decrease of 16 million yen in capital surplus, a decrease of 6,390 million yen in retained earnings and a decrease of 6,407 million yen in treasury shares.

As a result of these, as of December 31, 2025, capital surplus stood at 9,599 million yen, retained earnings stood at 28,041 million yen, and treasury shares stood at 2,247 million yen.

(Accounting policies adopted specially for the preparation of quarterly consolidated financial statements)

Tax expenses were calculated by rationally estimating the effective tax rate after applying tax effect accounting for profit before income taxes for the fiscal year including the nine months ended December 31, 2025, and multiplying the profit before income taxes by the estimated effective tax rate.

(Changes in accounting policies)

Not applicable.

(Changes in accounting estimates)

Not applicable.

(Changes in presentation)

In the consolidated balance sheet for the previous fiscal year, contract liabilities were included under "Other" within current liabilities. However, due to an increase in materiality, the Company has presented contract liabilities as a separate line item starting with the consolidated accounting period for the nine months ended December 31, 2025. To reflect this change in presentation, the consolidated balance sheet for the previous fiscal year has been reclassified accordingly.

As a result, the 8 million yen previously presented under "Other" in current liabilities in the consolidated balance sheet for the previous fiscal year has been reclassified as "Contract liabilities."
